Staging Made Simple

- Modular
- 3 Simple Components
- Compact, Portable Storage
- Lightweight and Strong
- UK Manufactured
- Quiet

UK's Leading Portable Staging Experts

Unistage manufactures and supplies high quality, modular staging solutions, allowing you to create a platform for any performance, that is simple, safe and compact to store. Unistage is strong, lightweight and easy to use, making it ideal for any venue.

In-House Manufacturing

Unistage are proud that all of our staging is manufactured in our factory in Lancashire, UK. This gives us full control on all of our design and manufacturing processes, quality and testing and ensures we produce staging we are proud to deliver.

We take care to source supplies from environmentally friendly and sustainable sources wherever possible and we are committed to purchasing all of our materials from British suppliers.

Welding

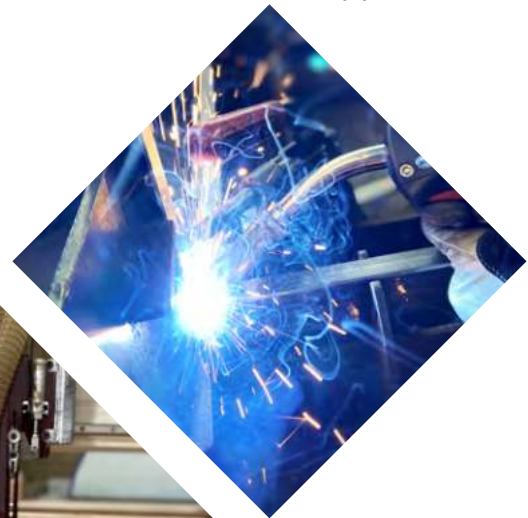

No job is too big or small - from standard to fully bespoke our welding department can produce frames of any shape or size to fit your needs.

We work closely with our laser cutting specialists to ensure every project is made to your exact specifications.

Wood Shop & Spray Booth

Focused around our 4-axis CNC routing machine is our 210m² woodshop with spraying facilities.

Everything up to delivery of your order is taken care of in - house, which gives us full control of design and manufacture. Our on site spraying facility means there is a range of wood finishes available upon request.

Bespoke Requirements

Unistage have an 'in-house' design team to create and develop a stage or platform specifically to meet your requirements. From bespoke structures and sizes to a variety of finishes, we can manufacture the right solution for you.

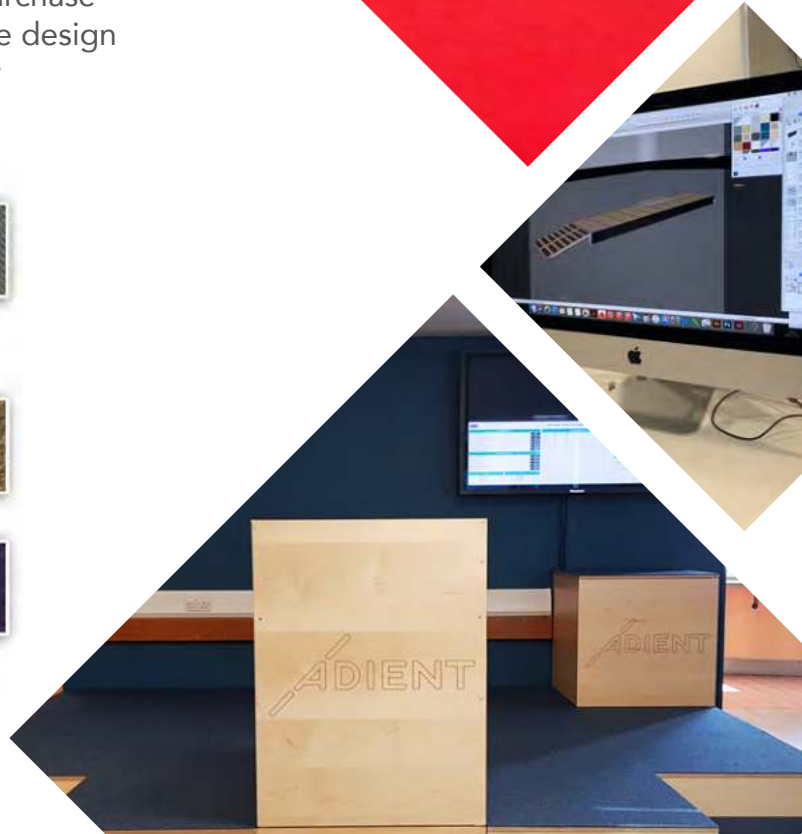

Our CAD designers are able to design and produce a visual for you which can then be put into production. Whether you are looking for a certain size stage to fit into an existing space, or require a platform to match an existing height, we are able to cater for this.

Our portable staging is also an ideal solution for awards and prize giving podiums. Use part of your stage or purchase units to create a stand alone podium. Our in-house design team can create bespoke fascias with your logo or colours incorporated.

VALANCE/DRAPE COLOURS

CARPET COLOURS

Flat Staging

Our durable and versatile flat staging is an ideal choice for a wide range of venues and events such as plays, presentations, concerts, and catwalks. Our staging comprises of sturdy steel frames and hard-wearing non-slip birch ply decks.

With no holes or rubber bungs on the surface our staging is perfectly flat, reducing the risk of trips and falls.

Why Choose Unistage Flat Staging

- ◆ Compact, portable, easy to stack and store away
- ◆ Light and simple enough for even a child to assemble
- ◆ Sturdy, hard-wearing and secure
- ◆ Can be reconfigured in hundreds of ways
- ◆ No tools required for assembly/disassembly
- ◆ Can be stained as required, reversible carpet finish also available

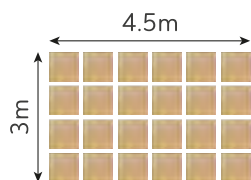

Flat Staging

All flat staging sets come complete with Unilinks to secure the units together as well as a portable storage shuttle. They can be configured into multiple layouts.

Set 12 Components 3m x 2.25m	Frames	Unidecks	Steps	Unilinks	Storage Shuttles	360mm high £1818	
	 x12	 x12	 x2 180mm x2 360mm	 x18 2 Way x10 4 Way	 x1	540mm high £2098

		 x16	 x16	 x2 180mm x2 360mm	 x20 2 Way x14 4 Way	 x1	£2304
							540mm high
							£2604

Set 20 Components 3.75m x 3m	Frames	Unidecks	Steps	Unilinks	Storage Shuttles	360mm high £2794	
	 x20	 x20	 x2 180mm x2 360mm	 x28 2 Way x16 4 Way	 x1	540mm high £3114	

Set 24 Components 4.5m x 3m	Frames	Unidecks	Steps	Unilinks	Storage Shuttles	360mm high £3408
	 x24	 x24	 x2 180mm x2 360mm	 x28 2 Way x20 4 Way	 x2	540mm high £3748

You can create a number of variations using the Set 24 Flat Staging.

Multi-Level Staging

Our multi-level staging is ideal for choirs and orchestras but can also be used as a flat stage too, making them a flexible and cost-effective choice for any venue.

No tools or extra parts are needed and our stacker frames fit into other frames, enabling you to build a stage of three or more varying heights with minimal fuss.

The stage is modular and can be configured to a range of different layouts and heights to suit every occasion.

Why Choose Unistage Multi-Level Staging

- Can be used as flat or multi-level staging
- Includes sturdy base frames and 180mm stacker frames
- Can be used with our steps or easy access ramps
- Covered by a 10 year manufacturer's warranty
- Available as standard birch ply decks, stained, carpeted or duo-decks
- Sound absorbent system eliminates all unnecessary noise
- Stores neatly on a portable storage shuttle

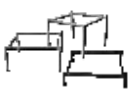

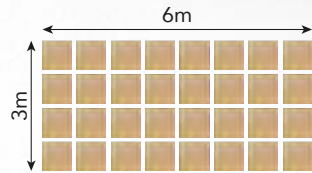

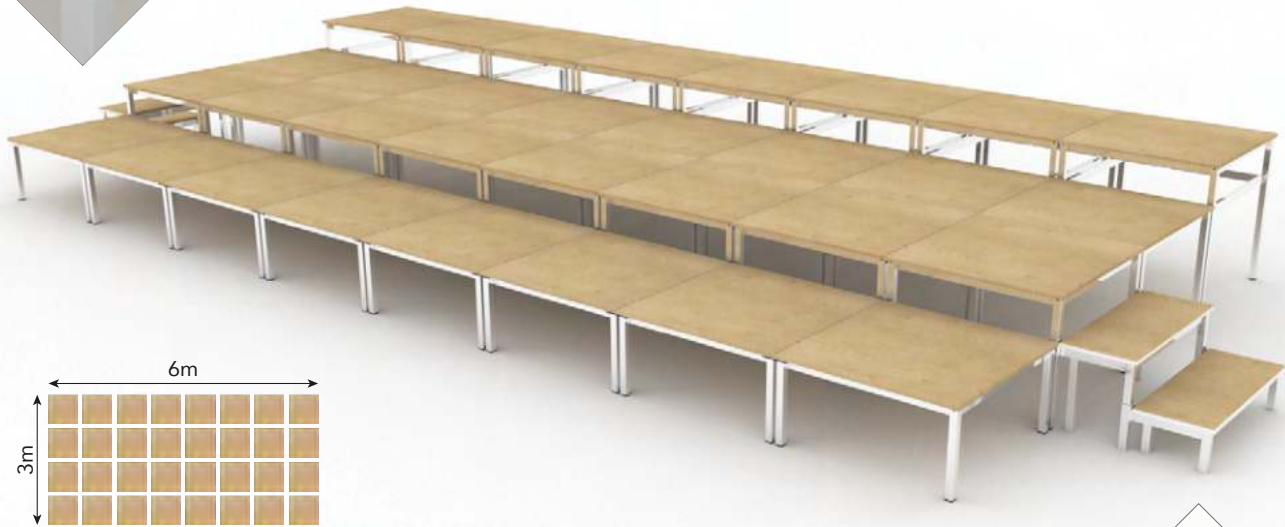

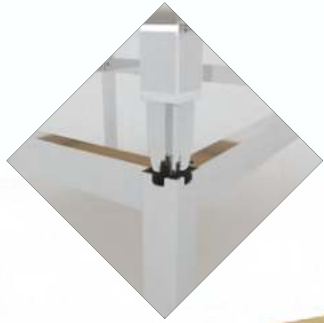

Multi-Level Staging

All multi-level staging sets come complete with Unilinks to secure the units together as well as a portable storage shuttle. They can be configured into multiple layouts.

Set 16 Components 3m x 3m	Frames	Unidecks	Steps	Unilinks	Storage Shuttles	360mm high £2564	
	 x20	 x16	 x2 180mm x2 360mm	 x20 2 Way x14 4 Way	 x1	540mm high £2864	

	Set 20 Components 3.75m x 3m	Frames	Unidecks	Steps	Unilinks	Storage Shuttles	360mm high £3119
		 x25	 x20	 x2 180mm x2 360mm	 x28 2 Way x16 4 Way	 x1	540mm high £3439

Set 24 Components 4.5m x 3m	Frames	Unidecks	Steps	Unilinks	Storage Shuttles	360mm high £3798	
	 x30	 x24	 x2 180mm x2 360mm	 x28 2 Way x20 4 Way	 x2	540mm high £4138

	 x40	 x32	 x2 180mm x2 360mm	 x32 2 Way x24 4 Way	 x2	540mm high £5276

You can create a Flat level stage with all Multi-level sets.

Tiered Staging

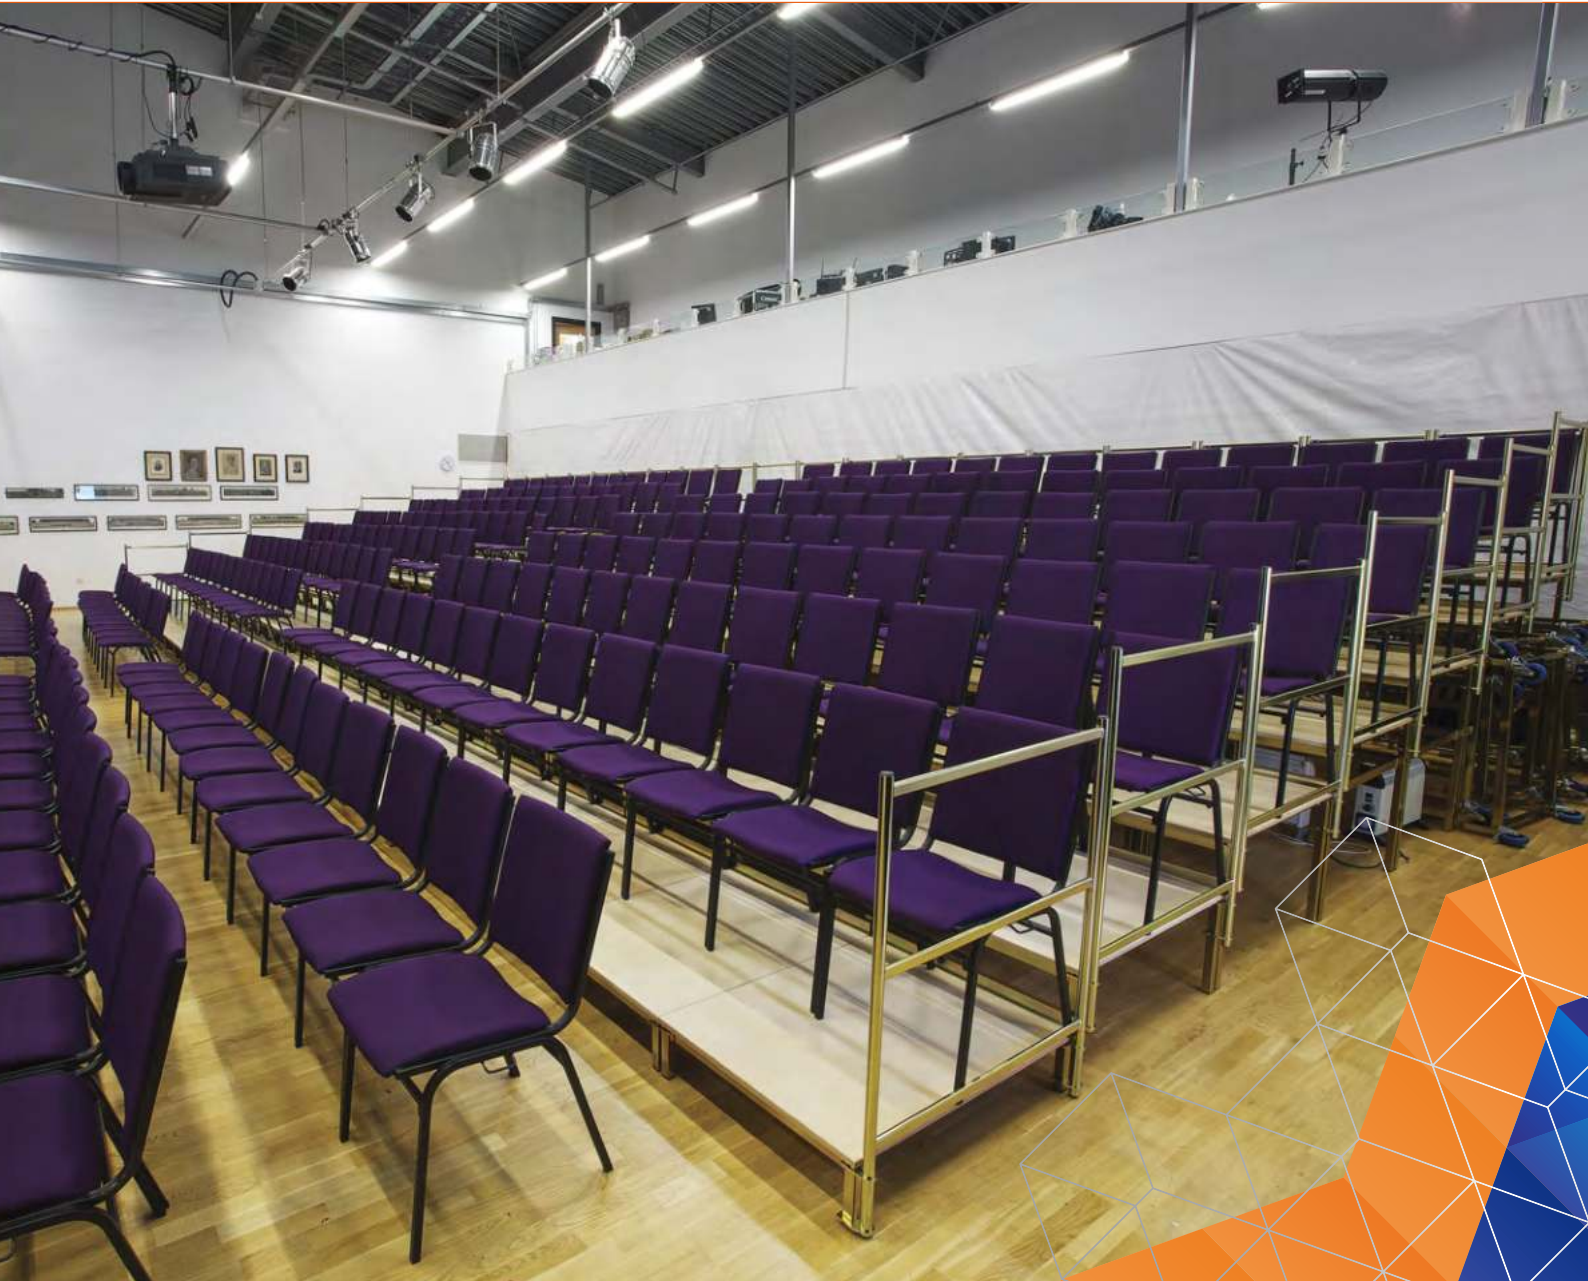

Unistage has developed a range of unique modular tiering that is ideal for standing performers such as choirs or alternatively for seated audiences.

Manufactured from hard-wearing but lightweight steel and birch ply, the UniTIER range links securely together for a safe, stable, non-slip performance or seating area.

Why Choose Unistage Tiered Staging

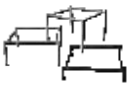

- ◆ Available as tiering for standing performers or seated audiences
- ◆ Includes sturdy base frames and stacker frames
- ◆ Can be used with our steps or easy access ramps
- ◆ Covered by a 10 year manufacturer's warranty
- ◆ Available as standard birch ply decks, stained, carpeted or duo-decks
- ◆ Sound absorbent system eliminates all unnecessary noise
- ◆ Stores neatly on a portable storage shuttle

Tiered Staging

All tiered staging sets come complete with Unilinks to secure the units together as well as portable storage shuttles.

UniTier 500A is designed utilising 750mm x 500mm Unidecks for use with approximately 56 people standing.

Accessories

We've got a wide range of staging accessories for neat storage, increased safety and changes of scene, helping you to add the perfect finishing touch to your modular flat, multi-level or tiered staging solution.

Ideal for any performance, presentation or production, our high quality staging accessories include extra base and stacker frames, extra decks, step units, staging storage shuttles, access ramps, guardrails, chair stops and drawer units.

We also offer a selection of blank and pre-painted stage scenery flats, and high quality, fire-resistant stage drapes and valances.

1. DRAPES:

High quality fire retardant fabric in a range of colours. (Drape post set and guardrails required).

2. GUARDRAILS:

Can be fixed to any stage unit and are also used to attach the drape post set.

3. FASCIAS/RISERS:

Wooden finish with magnetic connectors.

4. VALANCES:

High quality fire retardant material in various colours, which simply attach with a magnetic rod.

5. ACCESS RAMP:

Easily attached to the stage to aid access.

6. TRIDECKS:

Creates a different corner look.

7. CHAIR STOP RAILS:

Magnetic rail prevents chair legs from going through the gap.

8. STORAGE DRAWERS:

In various depths for under stage storage.

9. SCENERY FLATS:

Attaches to the drape post set. Supplied in white ready to paint. (D.P. Set and Guardrails required). Freestanding Scenery Flats are also available.

10. DRAPE POST SET:

Attaches to guardrails.

Storage

Spiral storage is our standard way of storing and transporting staging. You can store up to 24 Unidecks and 24 frames on each shuttle. Frames and decks can also be stored inline on a standard shuttle allowing them to fit through a standard doorway.

Unistage Compact Storage Solution

- ◆ Standard staging sets come with spiral stack shuttles, which can hold up to 24 Unidecks and frames.
- ◆ With a diameter of 1.07m and a height of up to 2.2m, spiral storage shuttles are ideal for most storage situations.
- ◆ However, if you are concerned about transporting your staging through narrow areas and doorways you may want to consider an inline storage shuttle, which has a width of just 0.9m.

Guardrail Shuttle

- ◆ Guardrail storage shuttles offer a neat storage solution for large sets of guardrails.
- ◆ With each shuttle you can store up to 20 guardrails, or 10 guardrails and up to 12 scenery flats.

Spiral Storage

Inline Storage

Guardrail Shuttle

Components

Unistage is made up of three principal components and is quick and simple to assemble without the need for tools. Individual components offer an adaptable option to fit a stage into any performance space.

Base Frames

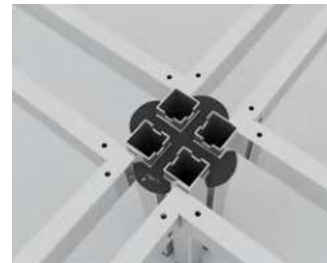

Stacker Frame

Base Frames

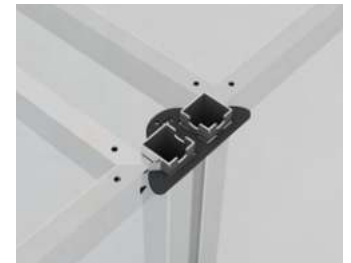

- Base Frames are securely joined together using unilinks.
- Stacker Frames can be placed on top of a base frame to increase height.

Unilinks

- Unilinks simply slide down the frame from the top and hold your frames securely in place.
- 2-way unilinks secure the perimeter of your stage.
- 4-way unilinks join the inside units.

4 Way Link

2 Way Link

Unidecks placed on base frames

Unidecks

- Unidecks are securely located on the top of a frame to create the stage floor.
